Online Program Update

Online Map/Other Update

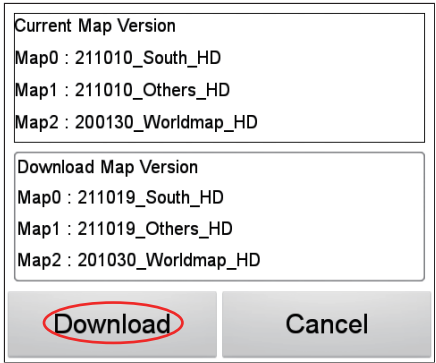

- When you use the mobile hotspot, data charge would be charged. Please, check your mobile data plan.
- In case you use the hotspot, the hotspot must be switched off when it ended.
- When Vega is downloading data through Wi-Fi, it must be near the Wi-Fi service.

Map Download

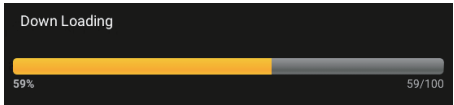

2. Click the version on [Fig.14] and if upgrade is required, click “Download”.

[Fig.14]

3. Downloading starts like [Fig.15]. When the download ends, the system reboots automatically. Even it stops at 99%, do not switch off.

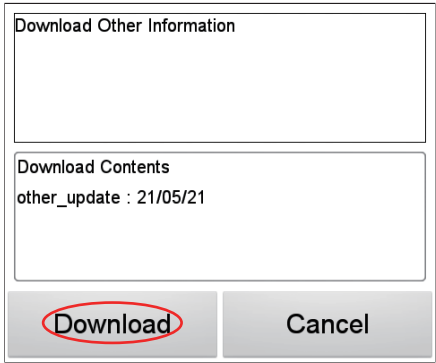

[Fig.15]

Others Download

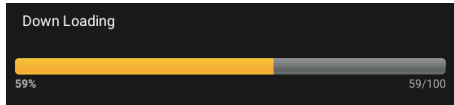

2. Check the version on [Fig.16] and if upgrade is required, click “Download”.

[Fig.16]

3. Downloading starts like [Fig.17]. When the download ends, the system reboots automatically. Even it stops at 99%, do not switch off.

[Fig.17]

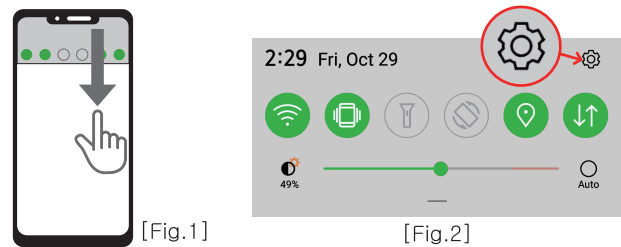

Other update takes long time. Please, wait until the system will reboot.

Wi-Fi

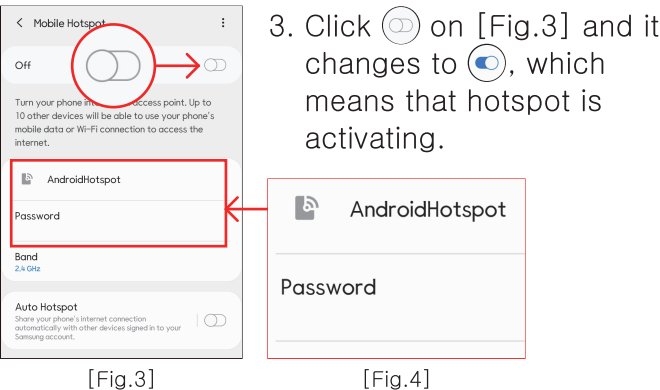

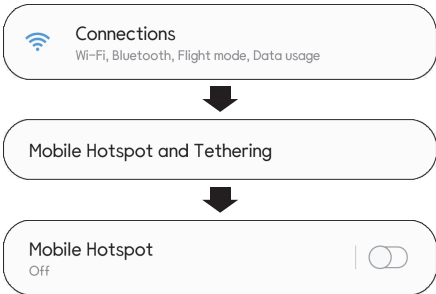

Smart Phone Hotspot
(No internet/Wi-Fi Service)
